

DIAMOND CLASSIC SYNCHRONIZED SKATING COMPETITION COVID PROPOSAL

MONITORING PARTICIPANTS ENTERING THE BUILDING

The first line of defense is monitoring all participants, officials and volunteers entering the building. The MFSC has purchased several digital-thermal thermometers. Each member of each team will have their temperature checked before entering the arena. All officials and volunteers will also be screened. Skaters, Coaches, Officials and Volunteers with fevers exceeding 100 degrees will not be permitted to enter the arena.

CLEANING AND DISINFECTING WARM UP AREAS AND LOCKER ROOMS

- The ice arena will be fully cleaned and disinfected before the event and throughout the event.
- Volunteers will be stationed at each locker room and warm up area.
- When team moves from their warm up location to their locker room, a volunteer will clean and disinfect the area and wipe down all of the surfaces before the next team enters that warm up area.
- The club is researching the possibility of renting Clorox Fogger to spray locker rooms between teams.
- Hand Sanitizer and disinfecting wipes will be available in all locker rooms and throughout the arena.

MASKING FOR EVERYONE

All participants, officials, and volunteers will wear masks while in the building. All skaters will be expected to wear a mask unless they are warming up or skating on the ice. Volunteers will assist monitoring skaters, coaches, and officials for compliance. Any individual not compliant with masking wearing will not be permitted in the arena.

SPECTATORS

There will be no spectators allowed in the building to allow teams to have adequate space to warm up and prepare for competition.

VIEWING the EVENT

The city of Mentor has built a large amphitheater immediately outside of the arena. The MFSC is pursuing the ability to “Livestream” the event to the large screens outside for parents and any individuals traveling with the teams to possibly watch the event.

The event will also be offered Live Stream for a fee to assist in cost of event.

SOCIAL DISTANCING OF SIX FEET

- Each room in the arena will have the number of individuals whom can safely be in an area together identified and posted outside of the room. See flier
- Teams will be scheduled so they will not have to travel through the building passing another team. Movement in building will be in one direction from upstairs to the lower level, going directly to the locker rooms. Teams may be provided with 2 locker rooms if needed to provide each team with the needed space to social distance.
- There will be 2 judges stands built to allow officials the ability to social distance while judging. If we are unable to accommodate 6 feet between officials, plexi-glass will be utilized to create needed barriers.
- Official hospitality will be available in the snack bar area with boxed lunches already packed. The food service will not be offered to participants; but instead will offer volunteers and officials pre-packaged food items.

MINI-SYSTEM COMPUTER USE

Every effort will be made to have officials assigned to a specific chair and computer for use throughout the competition or segment of competition. When there is an official panel change for an event or competition segment, the computers and equipment will be wiped down with disinfectant and the area sanitized.

COMPETITION SCHEDULE

Each team registered to compete will be assigned a time they may enter the arena upstairs. After each team member is screened, the team will be escorted to a designated warm up area. The team will have a set amount of time (30 min) to warm up. Rooms with more than one team will be taped off with specific traffic pattern identified keeping teams from mingling or passing close to another team.

WARM UP AREAS:

Community Room	3200 sq. ft.	Maximum occupancy-89 people	(3 teams)
Woods Room	2160 sq. ft.	Maximum occupancy-60 people	(2 teams)
Room D	960 sq. ft.	Maximum occupancy-27 people	(1 team)

When it is time for the team to enter their locker room/s the team will be escorted from their warm up area to their locker room/s. If the team has more members than the maximum occupancy of the locker room space, the team will be provided with 2 locker room spaces. Each locker room is also equipped with a restroom for team use. After a team competes and vacates the locker room/s, the space will be disinfected and all surfaces wiped down. Teams whom have finished competing will be escorted out of the building using the downstairs exits.

LOCKER ROOMS:

Locker Room 1	385 sq. ft.	Maximum occupancy 11
Locker Room 2	389 sq. ft.	Maximum occupancy 11
Locker Room 3	408 sq. ft.	Maximum occupancy 12
Locker Room 4	408 sq. ft.	Maximum occupancy 12
Locker Room 5	330 sq. ft.	Maximum occupancy 10
Locker Room 6	368 sq. ft.	Maximum occupancy 11
Locker Room 7	330 sq. ft.	Maximum occupancy 10
Locker Room 8	394 sq. ft.	Maximum occupancy 11
Locker Room 9	525 sq. ft.	Maximum occupancy 15

ADDITIONAL SPACE TO SOCIAL DISTANCE

The rink lobby is a large open 2-story space with 3,394 square footage. The arena has two ice surfaces measuring 185'X200'. There is 12+ feet around the perimeter of each rink. The West rink will be used for the competition. The East rink would provide additional space if a team needed to wait for a bus driver or other transportation to leave the rink in inclement weather.

OHIO DEPARTMENT OF HEALTH GUIDELINES

The MFSC will work closely with representatives from our local health department and follow all **Responsible Restart Ohio Guidelines identified for Non-Contact Sport Competitions.**
